MOHIT S K

+91 7418634741 | mohit17717@gmail.com | Chennai, India | LinkedIn | GitHub

SUMMARY

- Cybersecurity and full-stack development enthusiast with strong skills in AI systems, penetration testing, and scalable application development.
- Active participant in technical projects, hackathons, internships, and collaborative environments with a passion for continuous learning and emerging technologies.
- Certified in Ethical Hacking, API Pen testing, and Cybersecurity job simulations with strong analytical, teamwork, and problem-solving abilities.

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY - B. Tech Computer Science and Engineering 2023 - 2027
CGPA: 8.26 (5th Semester)

TAGORE PUBLIC SCHOOL 2022 - 2023
Class: 12 | Percentage: 68.5%

MAHARISHI INTERNATIONAL RESIDENTIAL SCHOOL 2020 - 2021
Class:10 | Percentage: 65.6%

TECHNICAL SKILL

- Programming Languages: Python, Java, HTML, JavaScript, CSS, Type Script.
- Technical Skills: Penetration Testing, Prompt Engineering, Full Stack Web Development, Cyber Tools, Kali Linux.
- Frameworks & Libraries: Pandas, NumPy, Matplotlib, OpenCV, React.js, Node.js, Prisma, IAM Fundamentals.
- Databases: PostgreSQL, MongoDB, GCP (Google Cloud Platform).
- Development Tools & Practices: Git, VS Code.
- Hardware Skills: PC Building, Robotics.

EXPERIENCE

CYBERSECURITY INTERN | PROMPT INFOTECH | Coimbatore, India June 2025 - July 2025
Completed cybersecurity internship at PROMOT INFO TECH, gaining hands-on experience with tools like Metasploit, Wireshark, Airmon-ng, and Kali Linux. Developed practical skills in ethical hacking, network security, and penetration testing through collaborative, real-world learning.

PROJECTS

AURA VISION -AI VISION ASSISTANT FOR THE VISUALLY IMPAIRED
(Tech Stack: Yolo v8, Blip, Custom YOLO, Open CV)

- SaRaM Project Day 2026 Edge Computing and Embedded Ai, Built an Edge-First Real-Time Vision System Using Dual Yolov8 with Temporal Gating, Integrated with Blip and a Local Lama Layer for contextual, Low-Latency insights and audio feedback. Optimized and deployed the full pipeline on Raspberry Pi 4 (8gb) for efficient CPU-Only execution with stable, Real-Time Performance.

MANAGE+
(Tech Stack TypeScript, JavaScript (ES6+), Next.js, React.js, Node.js, Tailwind CSS Tools & Libraries: Prisma ORM, OpenAI API)

- Built a full-stack enterprise project management platform using Next.js 16, React, Prisma ORM, and TypeScript with 30+ dashboard pages (Kanban, Sprint Planning, Risk Heatmap, Budget Tracking, Impact Analyzer) supporting 120+ users and 500+ tasks

- Developed an Autonomous PM Agent and Consequence Engine powered by Llama 3.3 70B that detects blocked/overdue tasks, performs constrained reassignments, and propagates downstream impact notifications — achieving 43% faster blocker resolution and 31% better workload balancing
- Engineered a 5-engine analytical pipeline (CPM, Resource, Risk, Health, Optimization) with parallel execution and caching, plus a role-based AI Chat with 5 personas and 11 tool definitions enforcing data access controls on LLM reasoning

Aero Scan

(Tech Stack: Python, Thin Kinter, Nmap, HTTP, Shodan io, Kali Linux)

- Developed a network security tool to scan IPs/URLs, identify open ports, detect services, and map potential vulnerabilities with latency insights. Generated developer-friendly reports with risk levels and remediation steps, enabling faster detection and mitigation of weak configurations.

EDFA VISSION

(Tech Stack: HTML, CSS, JavaScript, Chart.js, Three.js.)

- Built an interactive web-based EDFA simulator implementing the Giles-Desurvire model for real-time computation of gain, noise figure, ASE spectrum, and population inversion across the C-band (1530–1565 nm)
- Developed a 3D fiber cross-section visualization using Three.js, rendering the erbium-doped core, cladding geometry, and real-time population inversion heatmap with interactive orbit controls
- Engineered 6 dynamic Chart.js visualizations including power evolution, gain/NF spectrum, and gain saturation curves with live parameter binding across 15+ tuneable inputs

LANGUAGES

Tamil – Native Proficiency
English – Working Proficiency
Hindi – Elementary

HOBBIES

Horse Riding
PC Building
Farming
